CONDOLENCE

The entire administration and the Teaching fraternity of the College is in a deep shock to mourn the untimely demise of Prof. Ghulam Mohi-ud-din Bhat, Professor and Head Department of Electronics and Communication Engineering, Institute of Technology (IOT) University of Kashmir. Paying the tribute for a long association of the late Professor with the College in the capacity of Dean College of Engineering and as an experienced guide with a positive attitude, he has been very regular visiting professor to this college to deliver lectures and share his vast experience in the field of Science and Technology, the unfortunate death is being taken as a great loss to the Society.

Usually while addressing to the students of this college he would say "students is student, we as teachers have to serve them from whatever institution they belong to".

The Institute prays for the eternal Peace to the departed soul and strength to the bereaved family for bearing the irreparable loss with fortitude.

(Mrs. Dilafrose Qazi)
